Alexandria, VA 22313-1450

Dear Sir or Madam:

I, Gonzaga Lubega, residing in Masaka, Uganda declare as follows:

1. I am currently employed in the capacity of director of Maternal Life Uganda, a non-profit organization providing educational and support services for fertility awareness and HIV prevention.
2. In my capacity as director and trainer, I am familiar with the distribution and use of a bead-type menstrual cycle monitoring device developed by the inventor of the above referenced patent application, Dr. George Mulcaire-Jones (hereafter the "Mulcaire-Jones Device"). More specifically, I am familiar with the distribution and use of the Mulcaire-Jones Device in the country of Uganda since 2002.
3. During the time period from 2002 to the present, the number of Mulcaire-Jones Devices distributed to users in the country of Uganda was approximately 1000 devices.
4. Based upon information and belief, the Mulcaire-Jones Device has become the most widely used bead-type menstrual cycle monitoring device used by our organization in Uganda.

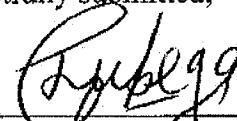

5. Based upon information and belief, women and couples using the Mulcaire-Jones Device prefer it to other bead-type menstrual cycle monitoring devices due to its simplicity of use, application to women in all stages of reproductive life (including women with irregular cycles) and its application for women and couples who may be illiterate.

7. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true. I understand that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. §1001) and may jeopardize the validity of this patent application or any patent issuing thereon.

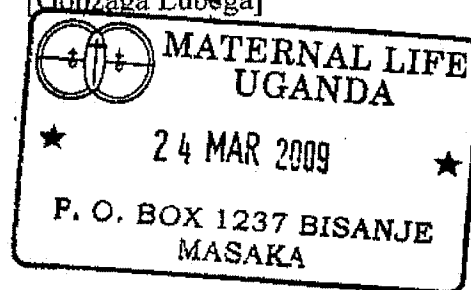

Respectfully submitted,

Date: \_\_\_\_\_

By: \_\_\_\_\_

[Gonzaga Lubega]
